This battalion will be composed entirely of ex-service men, and qualification will be as follows: Physically fit, good character, age up to and including 40; must be ex-regulars of imperial or Canadian service or have served in South Africa.

Recruiting will begin as soon as a suitable hall can be obtained, probably some time today. Further particulars will be given later.

## DRUNK WITH SELF CONFIDENCE, SOON BE DISILLUSIONED

Emperor's Subjects Hopelessly in Dark, Being Dragged Deeper and Deeper Into Uncertainties of World War—Believe Sword Has Been Forced in Their Hand—Belgian Resistance Scarcely Considered.

(Capital Leased Wire.)

London, Aug. 10.—When the history of this Armageddon is written, no matter what its outcome, the world will know that, so far as Germany was concerned it was a war of miscalculations. Germany has blundered in her preparatory stages and initial developments all along the line. Her own people, who will come to realize this before long, when they do so there will be walling, and gnashing of teeth.

At present they are hopelessly in the dark. Drunk with self confidence, they are being dragged deeper and deeper into the uncertainties of a world war in the belief that the sword has been forced into the kaiser's hand.

France Thought Unready.

Germany's miscalculations have been both political and military. They began with the cocksure supposition that the triple entente would not withstand the shock of war. France was held to be unready. Russia was looked upon as on the brink of a revolution both political and industrial.

England was thought to be preoccupied with Ulster and disinclined under any circumstances to risk anything in a great continental struggle not directly affecting her. Italy's help was regarded as a foregone conclusion.

The idea of the Belgian resistance to Germany's temporary invasion, was hardly considered. That Belgium could offer military opposition worthy of Plevna never entered the mind of the German. Sympathy was absolutely counted upon. Its absence is the cruellest disappointment the kaiser's government has so far suffered.

Hour of Rude Awakening.

Its miscalculations in regard to England were perhaps the greatest of all. It scouted the idea of an English army, or the idea that a Kitchener might suddenly be placed in charge of it. The Germans have been educated by their political professor to believe that a great European war which involved Great Britain meant the independence of Canada, Australia and South Africa and revolutions in India and Egypt. The hour of rude awakening has set in. Great soldiers and statesmen warned that the war would produce surprises. They have begun with a vengeance.

## ALSATIAN INHABITANTS ARE OVERJOYED AT THE SUCCESS OF GENERAL JOFFRE'S ARMY

Paris, Aug. 10.—The invasion of Lower Alsace by a French army has created a feeling of jubilation among the French commander-in-chief, has awakened great enthusiasm throughout France. French military authorities, while recognizing that the invasion of Alsace and Mulhouse by the French troops is not of high strategic importance, are of opinion that the successful advance of the French army far across the German frontier, will have considerable moral effect. It is also unofficially reported that Kolmar, further to the north, has fallen into the hands of the French.

The Alsatian inhabitants are said to have been as overjoyed at the appearance of the French army as they are up the frontier posts. Reports of the arrival of an Austrian army corps on the Swiss frontier near Basel were the object of close attention by the French military authorities. It was said that several more Austrian army corps were being organized in the Tyrol, whence they would later be sent toward the French frontier. In view of this, the French government yesterday asked the Austro-Hungarian ambassador at Paris, who still remains at his post to explain the intentions of Austro-Hungary in regard to France.

German Fire Buildings.

Before retiring from Mulhausen the German troops are said to have set fire to numerous buildings in the city, especially the warehouses, where food and forage were stored, and the finest at Hard near Kolmar, is said to have been razed. Martial law has been established in Alsace, where it is said that several men announced that any person suspected of sympathizing with the French would be executed without delay. Detailed orders were issued yesterday by both the French and Belgian governments, making the industrial resources of the two countries common property, while the railways of France and Belgium are working in co-operation in supplying military material. Coal and grain are to be utilized in normal manner by the two countries, and there is to be complete co-ordination of military resources. The governor-general of the French West Africa telegraphed to the colonial offices today, stating the colonial

## SAYS HE WITNESSED AGITATION AGAINST EMPEROR AND PRINCE

Paris, Aug. 10.—A special to the Figaro from Brussels says that two strangers who arrived from Berlin, which city they had left with some difficulty, declared they had witnessed an agitation against the emperor and prince in the German capital. "Down with the emperor" and "Down with the crown prince," was cried. The Belgian government has printed and distributed among its soldiers descriptions of all degrees of all uniforms worn by the French and English troops.

## AFTER DESPERATE ENCOUNTER FRENCH TROOPS VICTORIOUS

Germans Routed in Mountain Passes of Bonhomme and Sainte Marie.

NUMEROUS SKIRMISHES  
IN FRONT OF THE ARMY

Valley of Seille is Inundated With Germans Who Hope to Stop Advance.

(Capital Leased Wire.)

Paris, Aug. 10.—A statement issued by the war department at a late hour last night says that numerous skirmishes are taking place along the entire front of the French army. One clash with the Germans was violent and the losses on both sides were serious.

The official communication adds that the German troops are receiving reinforcements and that the French also are being strengthened. A battle between the two armies is expected in the Vosges mountains. Aeroplanes took part. The French troops, after a desperate encounter, obtained possession of the mountain passes of Bonhomme and Sainte Marie. Then, on Sunday morning, when the fighting was resumed they took a position dominating Sainte Marie Aux Mines.

The French losses are considerable. The French are not specifically given in the official report which confines itself to declaring that they were serious.

The wounded French and German soldiers were taken to the French fortress of Epinal for treatment.

A French aeroplane which descended during the engagement was reported to be at the officer who acting as observer of the German movement receiving a bullet in the hip. The pilot of the machine, however, brought him safely to the ground and he was able to return to his post where the aeroplane was also sent for repairs.

The German troops inundated the valley of the Seille by taking advantage of the darkness of the night to stop the advance of the French, but the quantity of water was so abundant that the French troops were able to continue their march.

The French today were in fact of the outposts of the French army. The front of Neu-Braunach which reports to be occupied in force.

Brussels, Aug. 10.—Reports received here today from many directions of the retreat of the German cavalry before the French forces which are said to have cleared a considerable territory. The locality of the fighting is not revealed by the military authorities.

In official circles here it was asserted today that there had been no further battle in the vicinity of Liege or in the town itself.

## ARTIST'S AFFIDAVIT RECITES BARBAROUS DEEDS OF GERMANS

Paris, Aug. 10.—How five young Frenchmen were shot and killed in Germany is graphically described in an affidavit sworn to by an artist, student, who declared French troops that two Italians travelling in the same train met the same fate.

The first Frenchman to be killed had shouted "Long live France" at Torgnach, a town of Baden, where he was awaiting a train. According to the affidavit he was immediately arrested, placed against the wall of the station and shot.

Three other French youths, who were among the same crowd detained at Torgnach by German soldiers, were killed and were told to shut their mouths. They were then led to the place where the Frenchman was shot and a group of officers fired at them as they fled. Women in the vicinity saw the affidavit recite, knowing what happened.

Another Frenchman who shouted "Assassinate" was also shot, says, while the two Italians were killed on the road between Waldshut and Immendingen.

One of them was killed in an argument over the closing of a train window, and the other died as he was objected to a German sitting on him.

Fleet to Oran.

Rome, (via Paris), Aug. 10.—An Austrian fleet of 12 battleships and 10 torpedo boats is said to be on its way toward the strait of Oran, which connects the Adriatic with the Mediterranean.

The probable purpose of the fleet is to give succor to the German cruisers Goeben and Breslau, which have been reported in that vicinity.

## POSITION MORE NEARLY NORMAL IN BANKING CIRCLES

Some Doubt, However, as to When London Stock Exchange Will Open.

GREATER EMPHASIS  
LAID ON BANK RATE

Anxiety is Removed and Reputation of Last Week's Scenes Not Likely

London, Aug. 10.—Still no decision has been made yet as to the opening of the stock exchange. The 24 hours' notice expected to be given by the committee was not announced on Saturday and it is understood the matter is still doubtful. Apart from this important phase, the whole financial situation continues to grow less troubled and complex and favorable indications continue to multiply to the satisfaction of the government and banking authorities.

Greater emphasis was laid on the better all round position to the further reduction in the bank rate. Reduced to six per cent. on Friday the official minimum was placed one per cent. lower on Saturday, standing now at five per cent. This is regarded as the top stone of monetary reassurance, evidence of the public has been completely regained its normalcy and that the position is one of strength.

The loosening of the bank rate is also due to the desire to complete early preparations for the floating of the war loan. The gold market has been quiet since the extraordinary demand came away to more usual conditions.

On government purchases of the metal in large quantities for current purposes, the price of silver advanced to 44 cents per ounce on Saturday. The metal exchange, however, announces that it will remain closed throughout this week.

## BRITAIN SENDING 100,000 TROOPS TO AID BELGIUM

Plans for Co-operation of British and French Troops Arranged at Conference.

TO BE EMPLOYED IN  
DEFENCE OF NAMUR

No News of Movement Given to British Public Until Force Landed on French Soil.

Paris, Aug. 10.—Official announcement was made by the war office Saturday that English troops are landing on French soil under the direction of French officers. It is also reported that a large force of French troops has reached the city of Lyons.

The British troops comprise the first British expeditionary force of 22,000 men, and include some of the crack regiments of the British army.

The troops will be sent to Namur to assist in the defence of that town, where it is expected the chief stand against the German invasion of Belgium will be made.

The bringing of the expeditionary force was made known by the presence of representatives of the British and French war offices held in London Wednesday, but no news of the proposed movement was made public until the troops actually had disembarked on this continent.

The present force is only a part of the expeditionary force which England is expected to send to Belgium, the war office admitted. It was said that the British government already had completed arrangements, including the commandeering of sufficient transport, to send an army of 100,000 men into Belgium.

Although a five strong British war vessels conveyed the troops which arrived Saturday, it is rumored that Great Britain is sending an entire fleet of British cruisers across the channel to keep the sea clear of German submarines.

It is reported that several boy scouts have been killed and wounded in the fighting at Liege. The boy scouts were most useful throughout the engagements in carrying despatches, and showed great courage.

## GERMANS PAY AN AWFUL PRICE BEFORE GAINING ENTRANCE INTO LIEGE

District Around Forts Sown With Obstacles by Belgians Who Work Havoc on Invaders by Heavy Artillery—Seventeen Notables of Captured City Held as Hostages by Kaiser's Troops.

Brussels, Aug. 10.—The occupation of the city of Liege was carried out yesterday by the Germans. The surrounding forts are still holding out. The Garrison, realizing that the citadel in the center of the city could not be held, blew it up to prevent the invaders using it. It was an old, disused fortress.

The Germans, on seeing spaces between the forts opened before them, started bombarding on Thursday evening. Among those who entered was General Von Emmich, commander of the tenth army corps, and his staff. At the citadel, which is the barracks of the garrison and the burgo-master of Liege were informed unless the town surrendered the Germans would proceed to the citadel and legal begin the bombardment. The Germans asserted that the peasants in the district had committed hostile acts against them.

Detained as Hostages.

"All members of the defunct were detained as hostages and it is not yet known whether they have since been liberated."

Paris, Aug. 10.—The first attack of the northeastern German column was made on the left. It attacked Fort Pion itself and the intervening space between Fort Pion and Evreux and also the interval between Forts Pion and Chaulmieu.

The attack from the beginning was without dash. The district had been sown with obstacles by the Belgian army and the artillery fire from the forts was heavy and well placed.

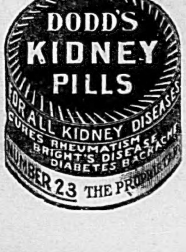

The Belgian attack from the interval between the forts was energetic. The German offensive movement soon was checked and it is not yet known whether they were engaged in the battle.

Civilians who did not fight are allowed to pass. But Belgians refuse to allow this courtesy to the Belgians because an artillery duel, the Belgian army was engaged in the battle.

London, Aug. 10.—A despatch from Rome to the Daily Mail says that a report is current that Emperor William has left Berlin in a motor for Alsace frontier.

The Daily Mail's correspondent advises that according to despatches from Basel, Switzerland, the Germans have evacuated Sankt Ludwig in Alsace, four miles to the northwest of Basel, and that a battle is imminent on the Swiss frontier.

CAPTURED VESSEL WILL  
BE TAKEN TO BERMUDA

News is Intercepted by Wire-  
less Aboard British Boat  
Narragansett.

(Capitalized Wire)  
New York, Aug. 10.—Customs in-  
spectors who boarded the British steam  
steamer Narragansett, in today from  
Holland, were informed by a sailor  
of the Narragansett crew that the  
North German Lloyd Kron Prinz Wil-  
helm had been captured by the British  
cruiser Essex and that the Essex was  
taking her to Hamilton, Bermuda. The  
sailor said a wireless message last  
Saturday from the Essex to the station  
in Bermuda, intercepted by the Nar-  
ragansett, told of the capture.  
The Kron Prinz Wilhelm sailed from  
New York last Tuesday heavily laden  
with coal, ostensibly for Bremen.  
The report was given some credence  
here in view of the announcement by  
the Canadian government made at Ot-  
tawa last night, that the Essex had  
advised the Bermuda station that it  
was bringing in a prize. The name of  
the captured vessel was not disclosed  
in the announcement.

Since the beginning of the war the  
Essex has been cruising between Ber-  
muda and Halifax. She was at Hal-  
ifax last Thursday as the convoy of the  
Mauretania. The message which the  
Narragansett is said to have inter-  
cepted read as follows:  
"Bringing Kron Prinz Wilhelm as a  
prize." The manager of the  
Mail Steam Packet company, said he  
had every reason to believe that the  
vessel was true. He would not say  
where he had heard it, but it was be-  
lieved that the British consul was his  
authority.

Rigorous censorship is being enforced  
in Bermuda and no confirmation of the  
report could be obtained here. Hamilton.  
A cryptic despatch from the corres-  
pondent of the Associated Press at Ber-  
muda indicated he had some news  
which he would like to communicate,  
but could not on account of the censor-  
ship. It was in reply to a message  
informing him of the reported capture  
of the Kron Prinz Wilhelm by the  
Essex.

The Kron Prinz Wilhelm, named in  
honor of the heir to the German throne,  
was built in 1901, at the Vulcan Works  
in Stettin, Germany, and launched in  
May, 1902. She is 663 feet long, or 63  
meters, 21,000 tons displacement and  
20,000 horse power. She has a speed of  
12 knots and at the time of her  
capture was one of the fastest and  
largest vessels afloat. She has  
accommodations for 1,715 passengers  
and crew of 512.

A despatch from San Juan, Porto  
Rico, last night, said the German  
cruiser Karlsruhe had arrived there  
Sunday morning, taken on enough coal  
to permit her steaming to Hamburg  
and would leave this morning.

The Karlsruhe is believed to be one  
of the German cruisers which have  
been hurrying French and British ves-  
sels leaving New York for Europe  
ports. If she was short of coal and  
did not get further supplies from the  
Kron Prinz Wilhelm, she would be  
forced into some neutral port for fuel.  
This may account for her presence in  
San Juan. She will be permitted to  
remain not longer than 24 hours. She  
expects to encounter French or Eng-  
lish cruisers off Porto Rico, when she  
leaves San Juan.

## CAPTURE OF LIEGE OF GREAT VALUE TO GERMAN TROOPS

Belgian General Staff Asserts  
Occupation Has No Influence  
Strategic Situation.

## MAIN ARMY REPORTED ADVANCING FROM LOUVAIN

Stated Tuetons So Weakened  
Unable to Effectively At-  
tack the Forts.

London, Aug. 10.—Messages received  
here today in official quarters from the  
Belgian general staff assert that the  
occupation of the town of Liege by the  
German troops has not had the slightest  
influence on the strategic situation.  
It is declared that so long as the ring  
of forts around Liege remains intact, as  
still is the case, the German army can-  
not advance. This, it is pointed out,  
makes it impossible for the Germans  
under the present circumstances to re-  
ceive supplies or ammunition.  
Every line of railroad, their main line  
and the German frontier is alleged to  
have been destroyed and the Belgian  
troops are said to have blown up every  
bridge and tunnel. The Belgian general  
staff declares that it has received re-  
ports that the Germans, after reaching  
Liege in a few hours, brought with  
them only sufficient food for a few days  
and little ammunition. Their main line  
of supply was broken and they are be-  
lieved to be in a desperate straits.  
The German army is said to have  
been captured of 4,000  
Belgian prisoners is baseless and as  
yet a single Belgian soldier has not  
fallen in the town of Liege, as they are  
all quartered in the forts.

As far as can be learned by the Bel-

gian general staff, some 120,000 Ger-  
man troops were engaged at Liege.  
They are said to have been weakened  
as to be unable to effectively at-  
tack the forts. On the other hand, it  
is argued that it is not possible for the  
troops to concentrate their attack on the  
town of Liege itself.

The next development in the situation  
is expected to be the arrival of the Bel-  
gian main army, reported to be ad-  
vancing rapidly from Louvain, in the  
northwest, to attack the Germans oc-  
cupying the town of Liege.

Brussels, (via Paris) Aug. 10.—The  
Belgian general staff today says the  
situation in regard to the Germans has  
modified since yesterday. However,  
the German forces are said to be going  
backwards before the advance of the  
French troops, a considerable effective  
force of which has got into contact  
with the German advance guard. It  
is reported that the entire territory to  
southeast of the Meuse has been cleared  
of German soldiers.

The French and Belgian armies will  
take the offensive simultaneously in  
conformity with a concentrated plan of  
campaign.

The emperor of Russia has tele-  
graphed King Albert expressing sin-  
cere admiration of the bravery of the  
Belgian army and the best wishes for  
the Belgian contest for independence.  
After the German troops reached  
Liege, the French army, which had been  
according to people who saw their ar-  
rival, there assembled all the inhabi-  
tants of the town and the best of them  
chosen. Of these eight are said to have  
been shot and two hanged. The mayor  
himself was arrested, but later was  
liberated by German officers who had  
been his guests the day before.

Other instances of alleged outrages  
by German soldiers are related in the  
Belgian government press.

### The Charm of Grace

Is even deeper in its fascination  
than beauty of coloring or features.  
Partly it is natural, partly it is ac-  
quired. It may belong to every  
woman who gives thought to her  
gowning and particularly to her  
corset.

Study your natural figure. What-  
ever it is, there's the right Warner  
Corset to improve it. Your gown  
will set better, your carriage be  
finer, your step more free and  
buoyant over this perfect Warner  
model.

So light in weight, even the ex-  
treme long skirted models, that  
their ease and resiliency are as  
noticeable as their beautiful lines.  
The "Security" Rubber Button Hose  
Supporters are an important factor  
in Warner Corsets. No Warner  
Corset ever "rides up" pulls to the  
side or draws down.

Every Warner Corset guaranteed to

## ATTRACTIONS FOR FAIR WEEK VARIED AND APPROPRIATE

Military Events and Playing of National Airs Will Be Big Feature of  
Each Show—Midway Performances Will Start Tonight at 6  
O'clock—19th Dragons Will Contribute Popular Musical Ride;  
Children's Folk Dances.

While the official opening of the  
Edmonton summer exhibition of 1914  
will not take place until tomorrow af-  
ternoon at two o'clock, the grounds  
will be open this evening at a general  
admission of 10c, and the public  
midway attractions have hurried to  
completion their preparations and are  
ready to give a performance tonight.  
In order that those wanting to patron-  
ize the numerous shows may dis-  
so the management fixed a low rate of  
admission for tonight, when the side  
shows will be open to the public.

Latest War News.  
Visitors to the exhibition will be able  
to keep fully abreast of the latest  
news from the war. The management  
has arranged with the Capital to sup-  
ply a service of war news on a special  
bulletin board in the stock pavilion.  
Other bulletin boards will be provided  
in front of the grand stand and in the  
manufacturers' building, so that visit-  
ors will be able to keep well informed,  
no matter what part of the grounds  
they may happen to be in.

The display of fireworks arranged  
for the exhibition will be wonderful  
beautiful. Some will be used in con-  
nection with the military tattoo, and  
this remainder will be displayed as a  
grand finale to the evening's performance  
before the grandstand.

Military Tattoo.  
Mr. Chas. Ross has been in the city  
for several days marshalling his forces,  
and promises a most spectacular fea-  
ture for the military tattoo. "Chas. & Co."  
Bag time must be fit in with rag  
time days, but when the honor of the  
nation is the thought which fills all  
minds, it takes "Hole Britannia,"

Canada and the "Marseillaise" to satisfy  
the heart.  
The 19th Alberta Dragons have  
worked hard to attain a state of per-  
fection in the popular military ride and  
are sure of raising applause from the  
people of Edmonton when they appear  
each day during exhibition week.

The folk dances put on by school  
children of Edmonton under the direc-  
tion of Mrs. May Hall James, com-  
pletes the local attractions before the  
grand stand. These will be augmented  
by several carnival features brought in  
from Chicago and the program will be  
a splendid one all through.

### HATTERS TAKE BOTH ENDS OF DOUBLE-HEADER FROM RED SOX

By Scores of 11 to 9 and 4 to 2—Mohart Had the Better of Berger on the Mound, and McCorry Opposed Buckles in Second Game.

Medicine Hat, Aug. 10.—Medicine Hat took the first straight by taking St. Louis's doubleheader. The first by 11 to 9, and the second, 4 to 2. The first game was a hotly contested one, and despite the fact that each team did considerable booting, the exhibition was good.

Berger and Mohart opposed one another and the latter had the best of the argument. Both pitchers were constantly in trouble through the bootings of their team-mates.

The second started with McCorry from the Northwest League, opposing Buckles. The Regina man was found in the pinches. At the start of the seventh, Henry, Regina's third baseman, was hit in the head by a pitched ball and taken to the hospital. He left the morning for Regina and may be out of the game for some time. The game was then called.

The scores:

First game.—R. H. F. Medicine Hat, 6; St. Louis, 9. 11 to 9. Batteries: Mohart and Barth; Berger and Harris.

Second game.—R. H. F. Medicine Hat, 4; St. Louis, 2. 4 to 2. Batteries: Buckles and Barth; McCorry and Harris.

### PITCHER USES HYPNOTIC POWER AND IS ATTACKED BY THE FANS

Professor Lee Lee, of Rayne, La., was famed for his hypnotic power. He was also a noted amateur baseball player and pitcher. It was whispered that the professor could call this uncanny power to his aid when in a tight place in a baseball contest.

One day Lee was pitching a game against Vada. The fans were very much to be believed that Lee could use this wonderful power with any great success in a real ball game. The professor claimed if he could get the batsman's eye surely could get his act. The game began by the first batter, a fan. It was noticed after the first strike that the batsman assumed a decidedly cross-eyed appearance, and when he reached the bench he was still looking that way. The second batter (man met the same fate, and his eyes had a decided wobble when he reached the drinking bucket. This continued until the evil-eyed harrier whiffed seven hits in succession, and they were all looking cross-eyed when he got through with them.

This had had effect on their fielding, the hypnotized players would look in one direction, or seemed to be looking towards first then throw the ball to second, and in a short time the whole infield was all tied up in a knot. This roused the ire of the Vada fans, and they started after the professor, and the latter professed to start for the gate, but the fans captured him and accused him of using his alleged hypnotic power to cause the batter to look cross-eyed. He admitted the accusation, but they proceeded to give him a good beating, and he was taken to the hospital. He tried to use his hypnotic power to squelch his assailants, but as he caught a shot at only one of his enemy at a time it was of no avail. So the crowd pressed in his pedal extremities to get out of the trouble, and he was taken to the hospital. The eyes which sent through such a haze of gloom, the power of which sent him into a state of unconsciousness, Vada players were beautifully decorated and almost closed.

### WELSH HAS BUSY TIMES TO COME

Since Winning Title Has Been Bombed by All and Sunday for Fight.

(By Tom S. Andrews.)

The all-absorbing topic among boxing fans at the present time is in regard to Freddie Welsh's recent victory over Willie Ritchie, whereby he annexed the world's light flyweight championship. Freddie is being bombarded from all sides with challenges, and at the present time it is hard to say just who his next opponent will be. But it is a pretty good bet that his manager, Harry Pollock, will not permit him to take any chances until he has had an opportunity to take in some of the easy money which he considers a champion is entitled to. Charlie White has been a persistent challenger of Welsh since he won the title and now comes Puckey McFarland, the Chicago prize, with a deft fight. Freddie at the weight he claimed was made in the match with Ritchie—135 pounds. This is not correct as they weighed in, 134 pounds on the day of the fight, and from all accounts there was little difference when they entered the ring, as both boys' weight was about normal. However, Welsh has repeatedly offered to make 132 pounds for Ritchie and no doubt he can make it. There is no question but that McFarland can make 137 pounds. But this is getting beyond the light weight limit and there is no reason why a match should be made with a weight which the title involved.

If we are going to have a light weight class, let us keep it where it belongs—132 to 136 pounds. McFarland and Welsh would be a great attraction, and it would also be a great fight. They have met three times, two being draws and the other a 10-round bout.

### TECUMSEHS WERE DEFEATED 7 TO 1

By Irish Canadians at Island Stadium, Toronto—Rough Play Last Quarter

Toronto, Aug. 10.—The Tecumsehs and Irish Canadians clashed Saturday at the Island stadium and the Indians were forced to lower their flag to the Green Shirts, scoring only one goal to their opponents' seven.

Don Smith scored the first goal for the visitors, neither team adding to their tally during the remainder of the quarter, though Quercie twice came near scoring. The Irishmen scored again in the first three minutes of the second quarter, H. Scott putting the ball through on a pass from Fred Scott. There was no further scoring, though there were some determined attacks by the Irishmen. Graydon for the Indians and Fred Scott for the visitors were benched. In the third quarter, Whitehead scored the first goal for the Tecumsehs, hitting the ball through on a rebound from Brennan's stick. Following an Indian, H. Scott, scored again after a brilliant run, and Murre brought the first lead up to three. Erratic shooting by both teams marked the first part of the fourth quarter. Some rough play followed and several players were sent to the bench. Finally H. Scott scored, to be followed by his brother Fred and Kane.

### Service Adds to Pleasure

One of the things that is making touring a great pleasure this summer is the service which the owner is given. The dealers and branch managers have been working overtime to outdo each other in smoothing the ruts and making the machine what the man anticipated when he bought the car.

Repairs are made in much less time than in other years, replacements are on hand or are secured very quickly and the owner is not "bothered" for the work done. Charges are reasonable as they should be, for the rich automobile owner now is in the minority and the ordinary owner will not stand for a hold up on the part of the repair men.

In addition to the service it does not cost as much to run a car now as it did a year ago. Tires are cheaper and the service better, for there has been an improvement in their manufacture the same as in all other parts of the automobile. Gasoline is much lower than in other years, something like five cents a gallon cheaper, so that the owner should be able to show about 10 per cent more mileage for the same amount of money spent, if he doesn't hit anything in the way.

It might be added that the 1914 models with all their excellence are the cheapest automobiles in the first class that have been produced, so that everything favors the owner this year.

## PRINCE ALBERT

the inter-national joy smoke

It's all out of fashion now-a-days for men to suffer with a stung tongue or a parched throat. Because Prince Albert is scot-free from that sort of thing.

If you didn't know it before, get this news direct from headquarters: Prince Albert tobacco is made by a patented process that cuts out the bite and the parch. It's just all-good with a flavor and a fragrance and freshness unequalled by any other brand at any price!

Men, that's some talk—some talk, but it's right and it's up to you to prove it.

Do you figure for a minute that in five years Prince Albert would have become the largest selling pipe and cigarette tobacco in the United States? If it was not all we claimed for it? Just lay a bet right here that P. A. will give you an absolutely whys you've hunted for years, either in a pipe or a cigarette. And that goes! Right now's the time, too, while the "listen" is in your system.

Prince Albert is imported into Canada by wholesale dealers, and is on sale, in one- and eight-ounce tins, by all of the leading retail dealers.

### QUAKERS AND MILLERS BREAK EVEN IN TWO GAMES SATURDAY

Saskatoon Took First 4 to 1 and Millers Second by 7 to 5—Outfielder Harley of Saskatoon Gets in Wrong With Fine Flow of Language.

Moose Jaw, Aug. 10.—The Quakers and Millers broke even here Saturday, the visitors taking the first game 4 to 1, and the locals the second game 7 to 5. The first game was a pitching duel between Peet and Beer, and had feet been given a square shake by Wheeler on balls and strikes, the night would have been the Quakers to two hits, while Beer kept the locals down to a trio of blows. After the game Harley addressed some dirty remarks to Fineman and the local players resented by offering to fight. The pair started in and Fineman got in one good wallop, when Weed stopped hostilities. Harley was very profane in his language, while the Moose Jaw player said nothing, but was contented to do the fighting. The Quaker center fielder voiced his opinion of the fans and Fineman in distinctly blasphemous tones, and should have been arrested. Wheeler claimed he had no jurisdiction over the men after the game was over.

The evening game was apparently won by the Quakers in the sixth, but in the local's half of the same frame they took advantage of Fineman's wildness to score four runs and win the game. A triple to the fence by Yule tied it up after Augustus B. Fineman had walked, while a single by Whitson and another by Peet gave the locals a two-run lead. Both kurlers and Russell were freely hit. Score:

Afternoon game.—Saskatoon, 4; Moose Jaw, 1. 4 to 1. Batteries—Beer and Walters, H. Peet and Wally.

Evening game.—Saskatoon, 7; Moose Jaw, 5. 7 to 5. Batteries—Russell and Spencer; Kurler and Wally.

### ARGONAUTS BEATEN BY DULUTH. BOBBIE DIBBLE AND BUTLER WIN

Amateur Oarsmen of America Hold 42nd Annual Regatta at Philadelphia—Duluth Crews Were Winners.

Philadelphia, Aug. 10.—The Duluth boat club champion senior eight oared crew, defeated the Argonauts of Toronto by defeating the Argonauts of Toronto by half a length in 6:27 2-5, in the feature race of 42nd annual regatta of the National association of amateur oarsmen, rowed over the mile and a quarter straight away course on the Schuylkill river. The New York A.C. crew third.

Duluth also won the intermediate four oared race from the Argonauts by three lengths. No time was taken because of a foul at the quarter mile mark between Argonauts and Duluth, a new start being necessary which were well distributed in the concluding day's events. John B. Kelly of the Vesper A.C., this city, beat Toronto's Howard Havenwood, N. Y., in the association single sculls race after a hard battle.

Australian Team Defeated.

Boston, Aug. 10.—Having secured the right to meet America next week in the challenge round for the Davis Cup, the Australian team defeated the two starries matches which were to have been played with the team from the British Isles Saturday. This left the final scores between the countries 3 to 2 in favor of the cup aspirants from the Antipodes.

## POLITICAL OPINION OF ALL SHAPES NOW SUPPORTS AQUATH

The "Tablet," a Jewish Catholic Organ, Says Britain Fights for Nobler of Causes.

### SANCTITY OF TREATIES AND NATIONAL TRUTH

Hundreds of Young Hebrews Are Joining British Army in East End of London.

London, Aug. 10.—How overwhelmingly every shade of political opinion supports the Aquath government at the present moment is further evidenced by the attitude of the "Tablet," a Jewish paper, which in an editorial, explains that it always strived in the interests of peace and opposition to the fact that Britain has no alternative but to go to war this time.

Another section of the community evincing the utmost loyalty is the Jewish people, many hundreds of young Jewesses having been recruited in the east end of London. In common with the Christian churches special supplications were made in the Jewish synagogues.

The Catholic organ, the Tablet, in an editorial entitled "Why England Fights" says she enters the fight with a knowledge that she is striking for the nobler of all causes, for the sake of human faithfulness, for the sanctity of treaties and truth between nations. All complexity was ended when Germany invaded the little state she was sworn to protect. England will vindicate the honor of her sacred word, which no nobler cause any man may wish.

The Tablet, in a special note, says that the war is being waged in the French provinces of Canada as they were never before. By the order of the Cardinal Archbishop of Montreal, a solemn mass temporal bell was celebrated in the churches yesterday with effusion and benediction.

### DUTCH AFRICANDERS PLEDGE ALLEGIANCE TO LAST CARTRIDGE

London, Aug. 10.—A Capetown despatch to the Morning Post shows that the Dutch leaders are anxious to support the British government in the present crisis. A meeting attended chiefly by Dutch Afrikaners, sent to General Botha, for despatch to the Imperial government a resolution declaring the local Afrikaners could be depended upon to follow the union jack to their last cartridge. The convenor of the meeting stated that he himself had been a rebel and that many of those present had also been rebels, adding that union with Great Britain suited them so well that they would shed their last drop of blood for the British flag and for South Africa if needed, also that all who related in Alwal north wanted the Germans to know that England could firmly rely on them.

The proceedings began and ended with the singing of the national anthem and rule Britannia, a thing almost unheard of in Alwal north.

Van Derhorst, the most prominent of Hertergies, has issued a manifesto in expressing his party's readiness to support the Imperial government that their "cause of right shall prevail."

### CAPTURE OF GERMAN UHLANS NEAR DINARD IS ALMOST ASSURED

(Capital Leased Wire)  
Dinard, France, Aug. 10.—(Via London)—The enterprise of German scouts is amazing. One prisoner of war has ridden over 70 miles and that many of them into French territory. Their method is to ride in small parties with the object of striking a point where the Meuse may be crossed.

A rather large body of German Uhlans are in the woods north of Dinard, but they are already surrounded and their capture is certain.

Revolutions between French and German east of Namur indicate that the Germans have been trying to feel their way south.

### WAR MAY YET SPREAD TO PACIFIC; JAPAN AND UNITED STATES AWAKE

Tokyo, Aug. 10.—The German fleet at Ping Tiao has already seized the Russian steamer Lian, carrying British subjects, has driven 100 merchantmen to their refuge in Japan. The Japanese has been embarrassed the entire Japanese shipping in the event.

The press gives credence to an alleged communication from America, saying the United States is sending a fleet to Asia to protect her interests. The report is considered baseless, but it has nevertheless reawakened interest as to America's attitude.

Forty missionaries, chiefly French, but some of them Germans, are leaving for their home countries to take their share in the war.

Winning League Champions.  
Winning, Aug. 10.—By defeating the French Conservatives 10 to 4 on Saturday the "Winning League" has won the championship of the winning league. It has not been decided as to whether the league will go after the team cup or not. It is thought that the winning league would have a chance to win, but losing to the war, many have been killed.

Los Angeles, Aug. 10.—The automobile races here Saturday. He made a mile on a circular dirt track in 44.4 seconds, one fifth of a second below the world's record, and he made two miles in 1:39.5. The former record was 1:42.4.

## "Crime of Centuries— Greatest Impulse to Socialism in History"

Former United States Senator Says It Is Almost Incredible That One Man Could Throw World Back Into Sixteenth Century—Will Be End of Kings With Real Power.

London, Aug. 10.—Former United States Senator Chauncey M. Depew, who has been an ardent admirer and personal friend of the Kaiser, severely censured the German ruler in an interview today.

"This war is the crime of all the centuries," said Mr. Depew, with impressive earnest. "It is a crime of ambition, the dream of a man who thinks himself another Napoleon. Millions of men will die as a result, directly and indirectly, of this crime, and for generations Europe will suffer incalculably."

"It is almost incredible that one man could throw the whole world back into the sixteenth century. Something is wrong with the Kaiser. Either his environment is at fault, or there has been a complete reversal of his mental process."

"This war will mean the greatest impulse for socialism that history records. It will mean an end to all kings with real power and an end to all bulging bureaucracies."

NEW YORKERS ENJOY  
THRILL OF WAR ON  
BOARD THE OCEANIC

London, Aug. 10.—Passengers aboard the Oceanic, which arrived Saturday at Southampton from New York, had their first insight into the meaning of war Wednesday night, when the decks were convulsed in the port holes shattered, lights extinguished, and noise was given that as a precautionary measure the ship would sail without lights during the night. Passengers were ordered to do without lights in their staterooms.

The impression prevailed that the Oceanic was pursued by German warships.

"We raced for two days and nights," said one of the passengers. "Thursday we had a thrill. We saw smoke from the wireless station and the clashing of the ship's guns. Through the clouds we could see that it came from war craft. Were they German or British? We did not know. We saw a string of flags fluttering over the stern. The signal was answered by the charge of the Masted district in 1878. In 1882 he retired from the war, and resided with his son, W. H. Jarvis in Edmonton, Alberta, and afterwards in Nelson, B. C., where his death took place on Tuesday, August 4.

BRITISH GOVERNMENT  
ACCEPTS MILLION BAGS  
FLOUR FROM CANADA

Ottawa, Aug. 10.—The British government has accepted "with deep gratitude" an offer made by the Dominion government of one million bags of flour as a gift to the people of the United Kingdom to be placed at the disposal of His Majesty's Government to be used for such purposes as they may deem expedient.

The Canadian government has since perfected arrangements for the full filling of their offer and ships will begin immediately. The price paid was \$2.50 per bag and as the delivery is to be made gradually, it is expected to affect the ruling prices in the Dominion.

The government has issued an official bulletin denying that capital expenditures in Canada will be curtailed. The present financial situation, however, may be continued and new ones will be undertaken as the revenues permit and the international financial situation clears.

Hon. Geo. Peck, acting high commissioner in London, stated that the banks are again open. Canadians abroad have no difficulty in cashing letters of credit.

Parliament, which meets on August 15, will be asked to legalize acts by the government since the outbreak of the war and will be asked to vote an amount said to be \$75,000,000 for expenditure in aid of Great Britain.

They were immediately dragged out of the train and four of them were picked out and shot."
